**TIS** CONTROL  
EVERYTHING

Introducing the **CLICK SERIES** - the perfect combination of modern home automation and classic, manual button control. Now available in eye-catching silver, gold, and black finishes, the Click series is here to make a big difference!

The **CLICK SERIES** includes an inclusive range of smart home accessories such as thermostat, 4 gang switches, universal plugs, shaver, USB chargers, and several other bits with single, two, three, and four modular frames that enable different combinations so you can create the perfect setup for your home or office based on your needs and preferences.

● TWO MODULAR FRAMES

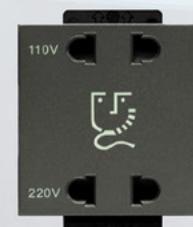

● USB CHARGERS

● THERMOSTAT

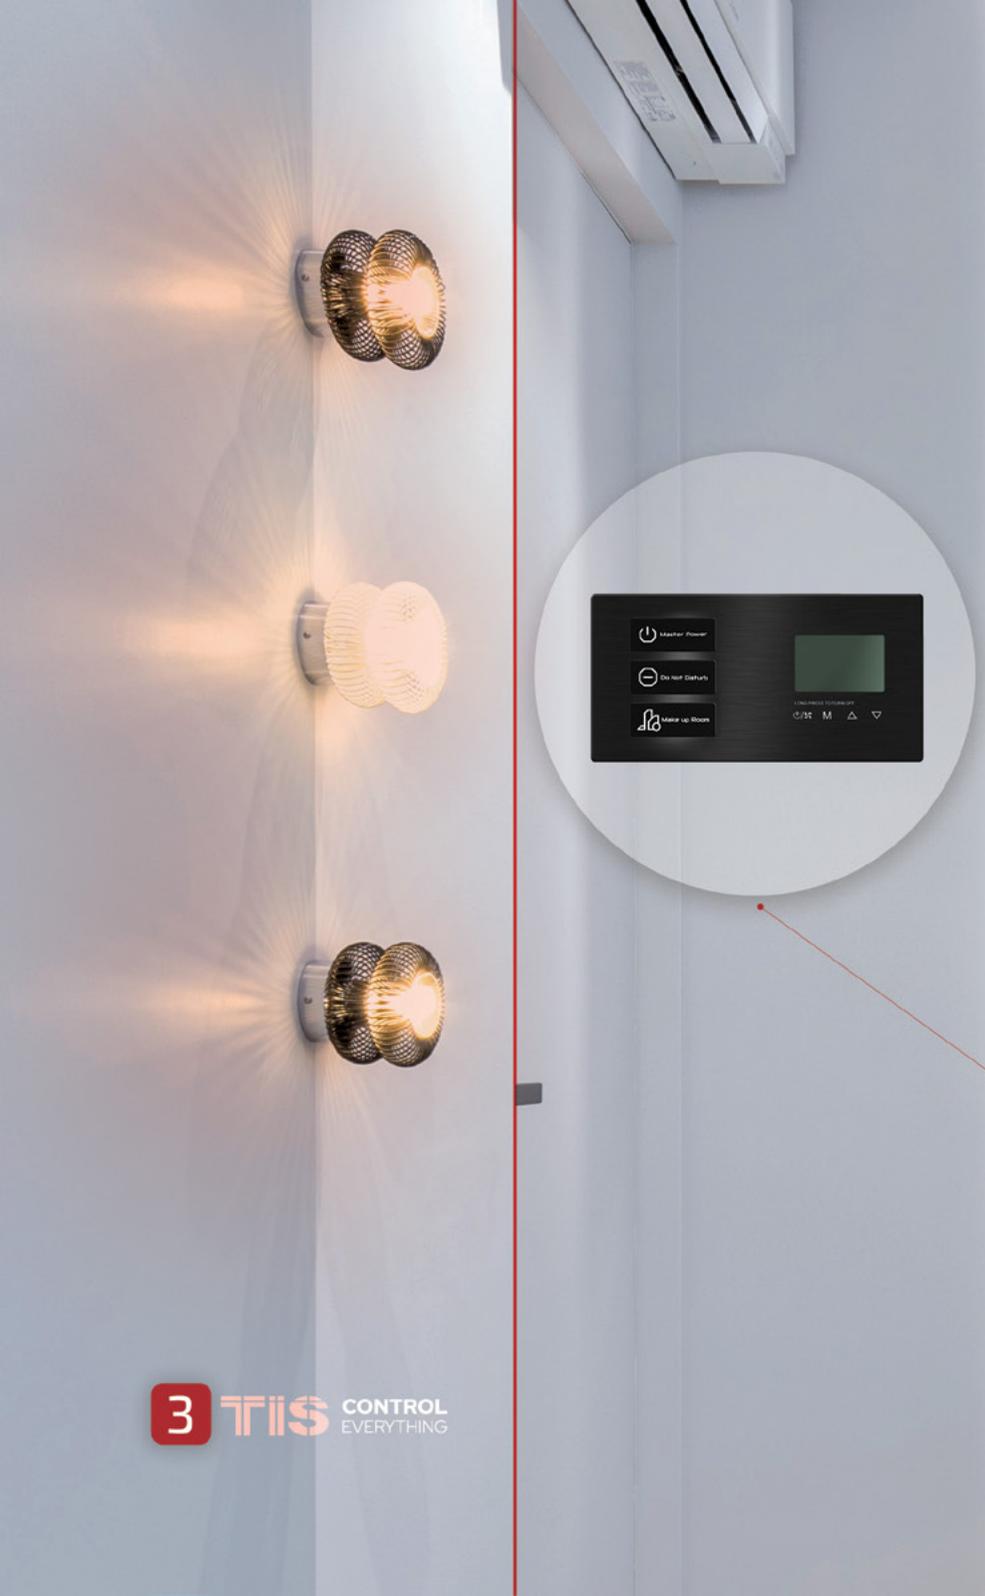

● UNIVERSAL PLUGS

● SHAVER

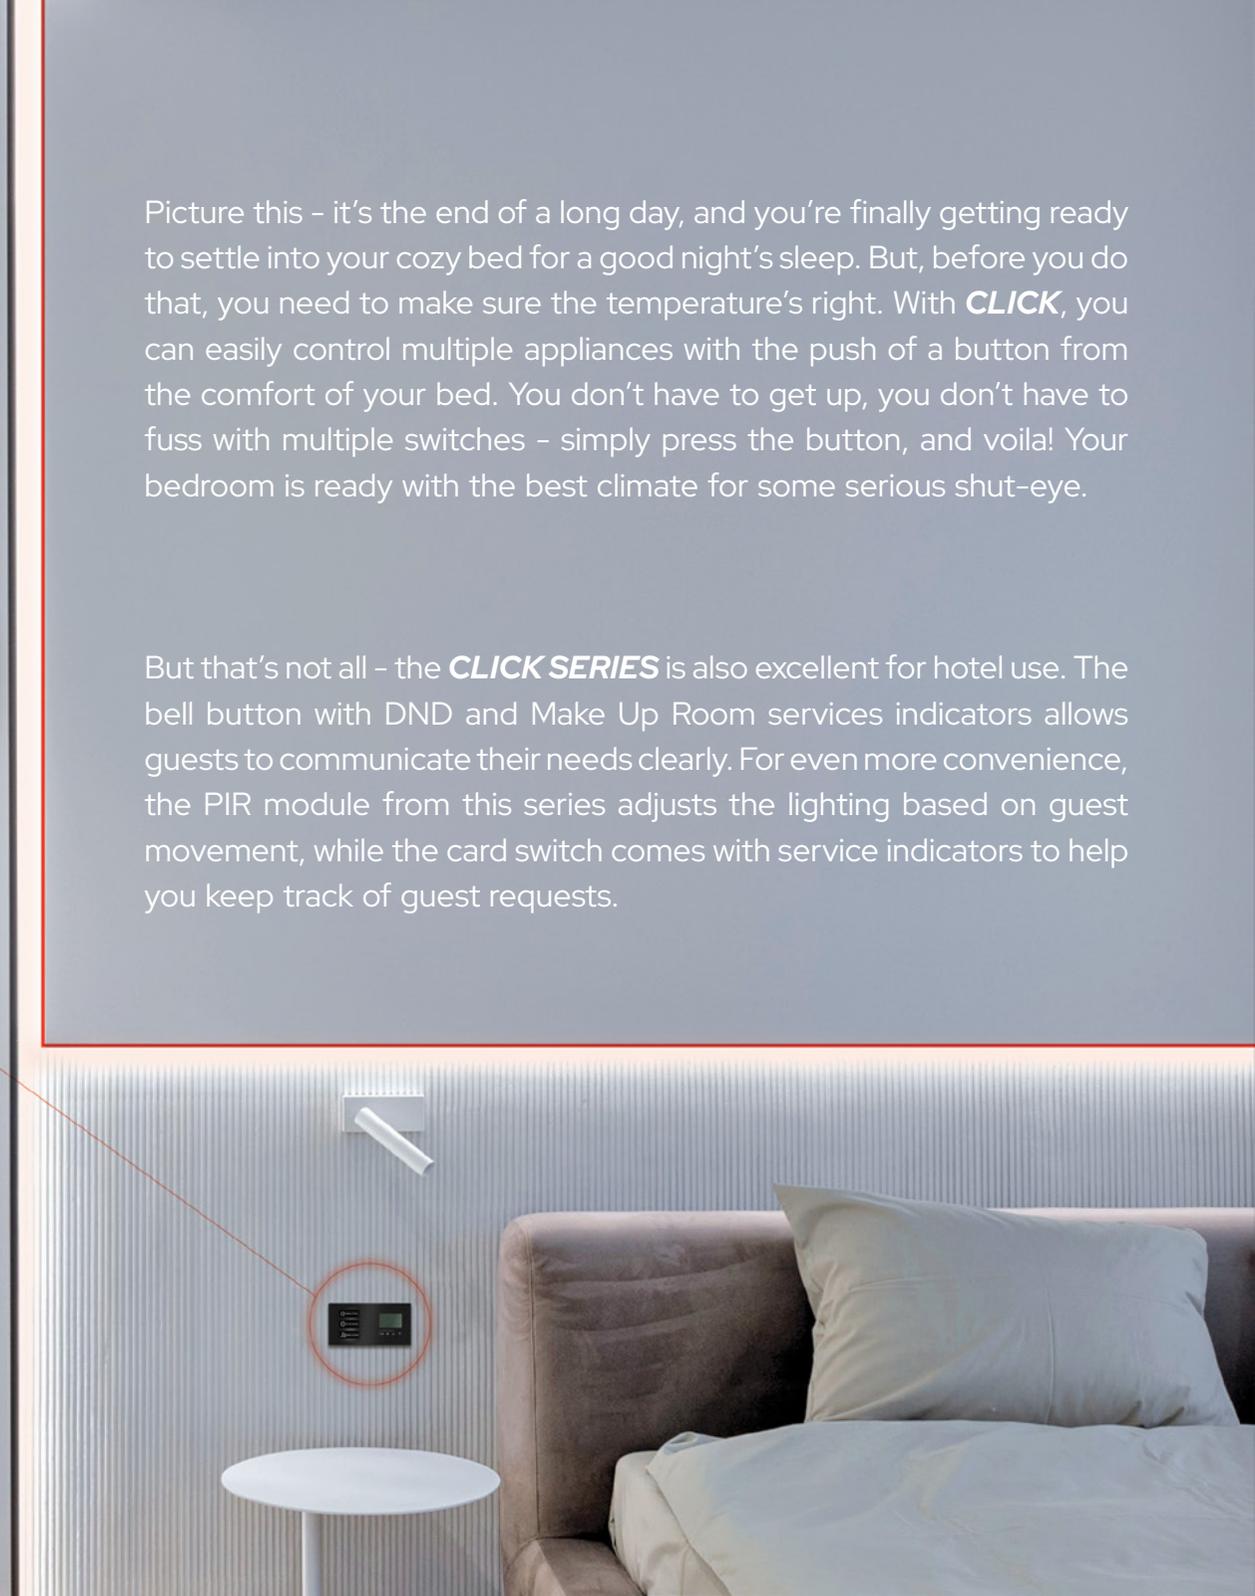

● 4 GANG SWITCHES

Picture this - it's the end of a long day, and you're finally getting ready to settle into your cozy bed for a good night's sleep. But, before you do that, you need to make sure the temperature's right. With **CLICK**, you can easily control multiple appliances with the push of a button from the comfort of your bed. You don't have to get up, you don't have to fuss with multiple switches - simply press the button, and voila! Your bedroom is ready with the best climate for some serious shut-eye.

But that's not all - the **CLICK SERIES** is also excellent for hotel use. The bell button with DND and Make Up Room services indicators allows guests to communicate their needs clearly. For even more convenience, the PIR module from this series adjusts the lighting based on guest movement, while the card switch comes with service indicators to help you keep track of guest requests.

You're the manager of a 5-star hotel, and you're constantly looking for ways to improve your guest's experience. Well, look no further than **CLICK SERIES!** With its customizable modular frames and smart features, you can offer guests an unparalleled level of comfort and convenience. Imagine a guest coming back to their room after a long day of exploring the city, and all they want is a hot shower and a comfortable bed to rest in. They don't want to fumble with multiple switches or call for assistance - they just want to relax. With the **CLICK SERIES**, you can offer them a seamless experience that will keep them coming back for more.

But why **CLICK SERIES** is the ultimate choice for those looking for a smart and functional home automation system?

1

**Efficiency:** With the **CLICK SERIES**, controlling your devices has never been easier. The modular frames allow you to combine different features and controls into one panel, which means you don't need to fumble with multiple switches or controls. This system saves you time and energy, making it perfect for those on the go.

2

**Functionality:** The **CLICK SERIES** is designed to provide maximum functionality in any setting. Whether you're at home or in a hotel, you have complete control over your environment. From adjusting the thermostat to turning off the lights, this system can handle it all.

3

**Comfort:** One of the best things about the **CLICK SERIES** is the level of comfort it provides. With its user-friendly design, you can control multiple appliances with the push of a button. This means you don't have to get up or leave your seat to adjust the temperature, turn off the lights, or even charge your phone. The system's smart features like PIR sensor and card switch also provide added convenience and comfort for hotel guests.

It's time to experience the perfect blend of manual control and smart automation with the **CLICK SERIES** Get yours today!
